

Acknowledgement

I take this opportunity to express my deepest gratitude and appreciation to all those people who made this project work easier with words of encouragement, motivation and helped me towards the successful completion of this project work.

First I would like to express my sincere gratitude to my Project Guide and Professor, Department of Computer Science & Engineering, Motilal Nehru National Institute of Engineering & Technology, Allahabad (U.P.) - 211004 for his insightful advice, motivating suggestions, invaluable guidance, help and lots of moral support in successful completion of this Project and also for his constant encouragement and advice throughout my B.Tech. (Computer Sciece & Engineering) programme.

I would like to thank all other teaching staff for their valuable teaching and constant advice which made me to finish this program successfully.

Finally my deepest gratitude goes to my parents who have given me much needed comfort, support, encouragement and inspiration for completing this project.

Abstract

This hospital has required a system that maintains its Hospital Management System as well as keeps the record of the Hospital in database. This software manage all information about patient name,patient address, doctor information, staff information etc. It also store daily imformation of patient which is done by doctor. Also store information about billing , finally it calcluate total bill of patient .
